Olympiad in mathematics Excellence Details Published 09/25/2017 15:24

Olympiad in mathematics "Excellent" is a wonderful chance for schoolchildren to show ourselves, reveal mathematical abilities, prepare for other mathematical competitions, to gain confidence in yourself and their forces.

Absolutely all children without restrictions can participate in the Mathematical Competition. They are waiting for a variety of interesting tasks, the tasks with the practical content that participants decide in the habitual setting for them in their own class or at home.

I would like to note that no participant in our contest, regardless of the result, will not remain without award. Diplomas of the participants of the competition will decorate the student's portfolio and will serve as the basis for future victories of your pupils. Pedagogues organizers who participated in the preparation and holding of the competition will also receive letters of thanks from the project administration.

Conducting a mathematical competition at school can diversify the educational process, to instill students in learning such an important school subject as mathematics.

For your convenience, the site has a modern system for receiving and processing the data of the organizers and participants of the competition. All information is presented in an easily accessible and understandable format.

Participate and enjoy the study of mathematics.
